**General Instructions**

**NOTE:** THE 2016 FORM 308 IS USED BY TAXPAYERS THAT ARE CORPORATIONS, EXEMPT ORGANIZATIONS WITH UNRELATED BUSINESS TAXABLE INCOME (UBTI), S CORPORATIONS OR PARTNERSHIPS. INDIVIDUAL TAXPAYERS MUST USE THE 2016 FORM 308-I.

Arizona Revised Statutes (A.R.S.) § 43-1168 provides a corporate income tax credit for increased research activities in a taxable year.

- This credit is available to corporate taxpayers, corporate partners, exempt organizations subject to corporate income tax on unrelated business income (UBTI), or S corporation shareholders.
  - An exempt organization may utilize this credit only if it results from activities that generate UBTI.
  - An S corporation may claim this credit against income Arizona is taxing at the corporate level, or it may make an irrevocable election to pass this credit through to its shareholders.
  - A partnership must pass this credit through to its partners.
  - If two or more taxpayers, including shareholders of an S corporation and partners in a partnership, share in the eligible expenses, each taxpayer is eligible to claim a proportionate share of the credit.
- This credit is in lieu of the solar liquid fuel credit (claimed on Arizona Form 344) with respect to the same expenses.
- This credit is allowed in an amount computed pursuant to Internal Revenue Code (IRC) § 41 with the following exceptions:
  - Qualified research includes only research conducted in Arizona. The term "qualified research", for purposes of the Arizona tax credit, means qualified research, as defined in IRC § 41, that is conducted in Arizona and basic research, as defined in IRC § 41, which is conducted in Arizona.
  - The amount of the credit is based on the federal regular credit computation method for Arizona qualified research expenses and Arizona basic research payments.

Taxpayers cannot use the federal alternative credit computation method.

- The allowable current taxable year credit is a percentage of:
  - The excess, if any, of the Arizona qualified research expenses for the taxable year, over the base amount; and
  - The Arizona basic research payments.
- The termination provisions of IRC § 41 do not apply.
- For 2016, if the allowable expenses do not exceed \$2,500,000, the allowable credit is 24% of this amount. If the allowable expenses exceed \$2,500,000, the allowable credit amount is \$600,000 plus 15% of the amount of expenses over \$2,500,000, subject to certain limitations.
- A portion of the current year's excess credit may be refundable if you qualify.

**Corporate Taxpayers:** *If two or more members of a unitary group or an Arizona affiliated group incur qualifying expenses, the individual members of the group are not considered separate taxpayers. When a combined return or a consolidated return is filed, the unitary group or the Arizona affiliated group is considered a single taxpayer.*

**REFUNDABLE PORTION OF THE CURRENT YEAR'S EXCESS CREDIT**

If you qualify, *and* if the current taxable year's credit for increased research activities exceeds your income tax liability, a portion of the excess credit may be refundable to you. To qualify to receive this refund:

- You must have less than 150 full-time employees.
- You must apply to the Arizona Commerce Authority (ACA) and receive a Certificate of Qualification (Certificate) to be eligible to receive a refund.
- The refund amount is the lesser of:
  - 75% of the excess credit, or
  - the maximum refund amount indicated on the Certificate; any additional amount is waived.

The excess credit is the current year's credit less the current year's tax liability. The 75% refund is only available for the current year's excess credit for increased research activities.

The election to make this credit refundable must be made when you originally file your return to claim the current year's credit.

If two or more taxpayers, including shareholders of an S corporation and partners in a partnership, share in the eligible expenses, each taxpayer is eligible to claim a proportionate share of the refund. An S corporation must apply for the Certificate on behalf of its shareholders. A partnership must apply for the Certificate on behalf of its partners.

**NOTE:** *The refund of this credit is calculated after your tax liability. You must calculate all of your other credits before you can determine the current year's excess credit.*

**CARRY OVER OF UNUSED CREDIT**

If your current taxable year's credit exceeds your tax liability, *and* you did not receive a refund of 75% of the excess, you may carry forward the unused portion of your credit to the next 15 consecutive taxable years. Due to various law changes, the

amount you may carry forward, and how you may apply those amounts, differ depending on the tax year in which it was earned.

If you received a refund of 75% of the excess credit, you do not have any excess amount to carryforward for this year. Any carryover amounts from the previous taxable year will be carried over to the next taxable year, subject to the fifteen-year carryover period and annual limitations on the use of those carryovers.

## Specific Instructions

Complete the name and employer identification number (EIN) section at the top of the form. Indicate the period covered by the taxable year. Include the completed form with the tax return.

All returns, statements, and other documents filed with the department require a taxpayer identification number (TIN). The TIN for a corporation, an exempt organization with UBTI, an S corporation or a partnership is the taxpayer's EIN. Taxpayers that fail to include their TIN may be subject to a penalty.

**All other taxpayers:** Begin computing your current year's credit on line 12.

#### Line 9 -

**NOTE:** You must have a written contract with the organization to include these payments in the calculation.

#### Line 10 -

Enter your base period amount based on your Arizona research activity. Refer to IRC § 41(e) for a definition of base period amount.

**NOTE:** The amount reported on line 10, up to the amount reported on line 9, is not eligible for the basic research credit. However, it can be treated as contract research expenses on line 15.

#### Line - 11

If line 9 is greater than line 10, subtract line 10 from line 9. Enter the difference. If line 10 is greater than line 9, enter zero ("0").

#### Line 12 -

Enter total wages paid or incurred for qualified services performed in Arizona. Do not include the amount of wages paid to employees that were used in the calculation of the federal work opportunity credit.

**NOTE:** Wages include any wages paid or incurred to an employee for qualified services performed in Arizona.

*Qualified services are: (1) engaging in qualified research; or, (2) engaging in the direct supervision, or the direct support of research activities conducted in Arizona that are defined as qualified research.*

*Qualified research is an investigation undertaken to discover information that is technological in nature. Its application must be intended for use in developing a new or improved business component.*

#### Line 13 -

Enter the cost of supplies paid or incurred for use in conducting qualified research in Arizona. Supplies include expenditures for any tangible property, other than land or improvements to land, and property of a character subject to the allowance for depreciation.

#### Line 14 -

Enter the amount paid or incurred to rent or lease the right to use computers in conducting qualified research in Arizona.

**Line 15 -**

Enter the total of:

- (a) Seventy-five percent (.75) of any amount paid or incurred for qualified research performed in Arizona by a qualified research consortium on the taxpayer's behalf. "Qualified research consortium" is any qualifying organization as defined in IRC § 41(b)(3)(C)(ii). Also include 75% of that portion of line 9, basic research payments, paid to a qualified research consortium that does not exceed the line 10 base amount.
- (b) Sixty-five percent (.65) of any amount paid or incurred for qualified research performed in Arizona on the taxpayer's behalf, other than such amounts paid to a qualified research consortium. Prepaid contract research expenses are considered paid in the year the research is actually done. Also include 65% of that portion of line 9, basic research payments, that does not exceed the line 10 base amount, other than amounts paid to a qualified research consortium.

**NOTE:** *If you made basic research payments to an Arizona university under the jurisdiction of the Arizona Board of Regents, you may be entitled to an additional credit. See Arizona Form 346 for details.*

**Line 16 -**

Add the amounts on lines 12 through 15. Enter the total.

**Line 17 -**

Enter the amount of expenses included on lines 12 through 15 that are related to solar liquid fuel that will be claimed on Form 344. The credit for increased research activities is in lieu of the solar liquid fuel credit claimed on Form 344 with respect to the same expenses.

**Line 18**

Subtract line 17 from line 16. Enter the difference.

**Line 19 -**

Enter the average annual Arizona gross receipts for the four taxable years preceding the taxable year for which the credit is being determined (the credit year). You may be required to annualize gross receipts for any short taxable year.

If 2016 is the first year you are in business, your average annual Arizona gross receipts for the preceding taxable years is zero. If you have been in business in Arizona for less than four taxable years prior to the credit year, then the average is the sum of annual Arizona gross receipts of the applicable period, divided by the number of taxable years.

*Example:* ABC Corporation began business in Arizona in 2014. Its annual Arizona gross receipts for 2014 were \$100,000. Its annual Arizona gross receipts for 2015 were \$200,000. Therefore, ABC Corporation's average annual Arizona gross receipts for the 2016 credit year is \$150,000 ([\\$100,000 plus \$200,000] divided by 2).

**Line 20 -****Fixed base percentage**

Use the same type of formulas to compute your fixed-base percentage for Arizona as you would for computing your federal fixed-base percentage. The difference is that you use

Arizona qualified research expense and gross receipts amounts instead of federal amounts. Other than that, the calculations are the same. Round off the percentage to the nearest one, one hundredth of one percent (four decimal places).

If the percentage computation involves *de minimis* amounts of gross receipts and qualified expenses in a taxable year or short taxable years are involved, the amounts may be annualized or disregarded. Refer to IRC §§ 41(c)(3) and 41(f)(4) for details.

**Existing firms and start-up companies**

Arizona's definition of whether an organization is an existing firm or a start-up company is also the same as federal, except on an Arizona basis:

- **Existing firms** - An existing firm is one that had both Arizona gross receipts and Arizona qualified research expenses for at least three taxable years beginning after December 31, 1983, and before January 1, 1989. The fixed-base percentage is the ratio that the aggregate Arizona qualified research expenses for all taxable years beginning after 1983 and before 1989, bears to the aggregate Arizona gross receipts for such taxable years.
- **Start-up companies** - A start-up company is one that had both Arizona gross receipts and Arizona qualified research expenses either (1) for the first time in a taxable year beginning after December 31, 1983, or (2) for fewer than three taxable years beginning after 1983 and before 1989.

If the percentage computation involves *de minimis* amounts of gross receipts and qualified expenses in a taxable year or short taxable years are involved, the amounts may be annualized or disregarded. Refer to IRC §§ 41(c)(3) and 41(f)(4) for details.

**NOTE:** *The maximum percentage that can be entered on line 20 is 16% (.1600).*

**Lines 21 – 22**

Read and follow the directions on the form.

**Line 23 -**

Multiply line 18 by 50% (.50). The base amount cannot be less than 50% of the current year qualified research expenses. This rule applies to both existing and start-up companies.
