Directors Message

Fiscal year 2017 continued to be a period of transformation for the Arizona Department of Revenue (ADOR) marked with successes as demonstrated in the 2017 Annual Report.

With our mission of “**Serving Taxpayers!**”, and vision of funding Arizona’s future through excellence in innovation, customer service and continuous improvement, ADOR is continuing to identify new ways to deliver better, faster and more cost-effective services for Arizonans.

Following Governor Ducey’s call to deliver services at the speed of business, the Annual Report outlines the agency’s drive to achieve its mission, and strategic steps being taken to address key pressure points and continue to make the Department of Revenue increasingly user friendly. This included the fact 535 ADOR employees processed 6 million tax documents and collected more than \$15.6 billion in fiscal year 2017 for key Arizona programs and services.

The Arizona Department of Revenue has taken decisive and deliberate actions to respond to the ever changing needs of Arizona taxpayers and to deliver more efficient and effective services.

ADOR is moving forward with e-solutions that better serve taxpayers, including automated processing of millions of tax returns and payments and expanding electronic filing and payment for all tax types to increase efficiency.

The Department is also challenging itself to accelerate processing returns for all major tax types faster than ever.

ADOR has delivered on its commitment to fully implement the state’s transaction privilege tax (TPT) system with the onboarding of the 14 remaining Arizona cities on Jan. 1, 2017, bringing the total to 91 municipalities. Under TPT, business taxpayers are able to register, file one return for all taxing jurisdictions and make TPT payments via AZTaxes.gov, no longer having to file two or more TPT returns.

The Arizona Department of Revenue has placed a renewed emphasis on education and outreach through expanded partnerships with stakeholders, such as county and municipal governments, tax professionals and various taxpayer-represented associations.

Our focus remains on deploying results-driven management, called the Arizona Management System (AMS), which is all about delivering better, faster and more cost-effective service for Arizonans. This ambitious program, which eliminates waste and inefficiencies throughout the system, is a top priority across the Agency.

We have moved forward with an IT modernization project to improve our Department’s information technology infrastructure. The need to modernize, develop technical and operational excellence in our workforce is critical in enhancing our tax systems and the security of confidential taxpayer information.

FY 2017 was a year of ongoing transformation and growth for the Arizona Department of Revenue, but, we know the journey is far from over on behalf of our customers, Arizona taxpayers. I am confident that we are up to this challenge and totally committed to improving ADOR each day.

Our Successes

Reduced Customer Wait Times

Working at the speed of business stands as a core pillar of the Arizona Department of Revenue's mission of *Serving Taxpayers!* Embedded in this commitment is to reduce Agency call center wait times for the tens of thousands of taxpayers who call every month. In 2017, the time it took to answer inquiries that ranged from refund questions to complex tax queries went from a high of 45 minutes to less than 3 minutes, and even under a minute for many months.

Transaction Privilege Tax Reform

In 2017, the Arizona Department of Revenue (ADOR) completed full implementation of the transaction privilege tax (TPT) reform for the remaining 14 Arizona cities that joined 77 other municipalities, under the state-wide TPT system. ADOR is the single point of administration and collection of state and city transaction privilege taxes for all business and residential rental owners in the state. This streamlined program is a benefit for local governments because they do not require extra city staff to perform TPT services. ADOR provides services that include processing tax returns, answering taxpayer inquiries and audit and collections services.

Agency Collaboration

The goal of giving Arizonans one-stop customer service was the driving force behind ADOR and the Arizona Department of Transportation working together to centralize vehicle use tax payments, improving the customer experience and saving the state money through enhanced efficiencies.

The new process means thousands of motorists who register vehicles they have purchased out-of-state, are able to register the vehicle and pay for both state and city use taxes at the MVD center at the same time. The new program will mean less frustration for Arizonans as it replaces an old cumbersome process whereby ADOR would send motorists a follow-up city vehicle use tax bill long after registering their car or truck.

Debt Set-Off

By using principles from the Arizona Management System, ADOR is supporting children in the state who are the innocent victims of a parent failing to pay child support. Through an ADOR program, more than \$4.4 million was secured in FY 2017 from deadbeat parents who were not paying their child support

payments. This money was redirected to the Arizona Department of Economic Security's child support enforcement. In the past two years, the program has captured \$10.3 million of outstanding child support payments.

Unclaimed Property

Making sure we help people get unclaimed property that is rightfully theirs is a focus of ADOR because the money or family possessions belong to them.

The property returned are assets that have been abandoned for years, but during the Department's 2017 fiscal year, ADOR successfully returned close to \$60 million to nearly 17,000 citizens and businesses. Amounts returned to unclaimed property owners ranged from under a dollar to more than \$2 million. In the past five years, more than \$225 million has been sent to individuals unaware of the funds' existence.

Real Estate Consolidation and Record

Retention Reduction

Arizonans expect their state government to work smart and save money where it can. In 2017, a consolidation project by ADOR resulted in relocating its Tax Return Processing Center back to the main Revenue Building, eliminating the need for 52,000 square feet in private-

leased space and saving hundreds of thousands of dollars in year-to-year taxpayer savings.

ADOR's consolidation project also supported the state government's ongoing drive to seek out efficiencies where possible and enhancing customer service. In 2017, the Department simplified retention requirements for federal corporate and partnership returns, resulting in thousands of businesses no longer having to submit paper federal returns to the Agency, which means 90,000 federal tax returns or 8 million pages no longer requiring processing and storage by ADOR.

Tax Fraud Prevention

The protection of Arizonans' private taxpayer information is paramount to ADOR. To combat the ever-evolving landscape of fraud and identity theft, ADOR continues to implement new counter measures, including advanced analytics that include machine-learning algorithms, stringent internal checks and balances and the ongoing incorporation of electronic tax return filing information, which gives the Department more fraud-prevention tools. Enhanced tax fraud detection has protected over \$100 million in state revenue from being stolen since 2015.

E-Filing

Moving Arizona into the 21st Century, ADOR is continuing to move tax filing to the envisioned electronic future state, which means a faster and more secure process. More than 80 percent of taxpayers currently file their individual income taxes electronically and this total is continuing to grow. However, corporate taxes have remained strictly paper. But, thanks to House Bill 2280, which was signed into law in March 2017, the Department is innovating and moving forward to deliver corporate tax e-filing for more than 90,000 businesses by tax year 2020.

E-filing is also a key component of ADOR's fraud detection program, because it gives the Department more tools in its ongoing focus of stopping tax fraud in the state.

- E-filed returns establishes an enhanced electronic "finger print" for each filer compared to paper returns.
- Investigations of paper returns take more time and actually generate more false positives, which delays the processing time for compliant tax filers.

Miscellaneous Taxes

Bingo Collections

The tax on state licensed bingo operations is based on a multi-tiered licensing structure. There are three classes of bingo licenses, each of which has a different tax rate.

Each licensee's tax rate is based on bingo receipts. Class A licensees, whose gross receipts do not exceed \$15,600 per year, are taxed at 2.5 percent of adjusted gross receipts. (Adjusted gross receipts are the monies left after paying prizes.) Class B and Class C licensees are also taxed on gross receipts. Class B licensees, whose gross receipts do not exceed \$300,000, are taxed at 1.5 percent of their gross receipts. Class C licensees, whose gross receipts exceed \$300,000 per year, are taxed at 2 percent of gross receipts from bingo.

All taxes collected are deposited in the state general fund (Refer to Table 39).

Unclaimed Property Collections and Distributions

Responsibilities of the Unclaimed Property Unit include the collection, safekeeping and disposition of abandoned property and escheated estates.

The Unclaimed Property staff receives and maintains records related to unclaimed funds along with other intangible and tangible personal property that is presumed to be abandoned. This property is received from business associations, banking and financial institutions, insurance companies, fiduciaries, state courts and governmental agencies.

Common examples of unclaimed property are:

- State warrants not cashed after six months;
- Payroll checks written to employees not cashed after one year;
- Contents of safe deposit boxes on which rent has not been paid for three years;
- Government and Court property not claimed in two years;
- Stock or other equity interest in a business association or financial institution with no activity for three years;
- Bank or credit union accounts with no activity for three years;
- Cashier and other official checks not cashed in three years;
- Checks written to vendors or customers not cashed after three years;
- Money orders not cashed in three years;
- Traveler's checks not cashed in fifteen years;

There is no statute of limitations for filing a claim for unclaimed property. Owners may recover their property at any time with proper documentation.

ESCHEATED ESTATES

In addition to their Unclaimed Property responsibilities, staff members also establish and maintain records of Escheated Estates. An Escheated Estate is created when a person dies without leaving a will and has no known heirs. When this condition exists, his or her property reverts to the state as the original and ultimate proprietor after seven years. Funds received from escheated estates are deposited into the Permanent State School Fund. (Refer to Table 41.)

Waste Tire Fee Distributions

The Arizona waste tire fee is a fee applied to the sale of new motor vehicle tires. The fee is to be collected quarterly at a rate of two percent of the purchase price not to exceed two dollars per tire.

During fiscal year 2017, the department collected \$9,679,319 and distributed 3.5% to the Arizona Department of Environmental Quality with the remainder being distributed to the counties based on the number of motor vehicles registered in the county (Refer to Table 42).

The distribution is performed quarterly.
