General Instructions

Which Corporations Must File a Return?

Every corporation subject to the Arizona Income Tax Act of 1978 must file an Arizona corporate income tax return. This includes an IRC § 528 homeowners' association that files any of the federal Forms 1120-H, 1120, or 1120-A. However, certain homeowners' associations that are federally exempt are also exempt for Arizona income tax purposes, and may file the Arizona Form 99. Examples are social welfare organizations (IRC § 501(c)(4)) and clubs organized for pleasure or recreation (IRC § 501(c)(7)).

Which Form to Use

Use Form 120 if the corporation: (1) has income from business activity that is taxable in more than one state (a "multistate corporation"); (2) is a partner in a multistate partnership and/or a partnership that conducts no business in Arizona; (3) is a member of a unitary group of corporations that files an Arizona return on a combined basis; or (4) is a member of an affiliated group of corporations that elects to file an Arizona consolidated return.

The only type of corporation that may use Form 120A is one that files its return on a separate company (separate entity) basis and has income from business activity that is taxable entirely within Arizona (a "wholly Arizona corporation").

Entity Classification under the Federal "Check-the-Box Rules"

The federal tax classification of an entity under the federal "check-the-box rules" determines the entity's classification for Arizona tax purposes.

Limited Liability Companies

Only a limited liability company that makes a valid federal election to be taxed as a corporation must file Form 120. A single member limited liability company that is disregarded as an entity is treated as a branch or division of the owner, and is included in the tax return of its owner. Refer to Arizona Corporate Tax Ruling CTR 97-2 for further information.

Electing Small Business Corporations

Corporations taxed as S corporations under Subchapter S of the Internal Revenue Code must file Form 120S.

Taxable Year Covered by Return

Indicate the period covered by the taxable year on page 1 of the return, and whether the taxable year is a calendar year or a fiscal year.

COMBINED RETURNS: A unitary group of corporations filing a combined return must determine income using the same accounting period.

Filing Original Returns

Returns are due by the 15th day of the fourth month following the close of the taxable year. If the taxpayer has a valid federal or Arizona extension, file the return by the extended due date. If the taxpayer files under extension, the taxpayer must check the extension box on page 1 of the return. Send the return to the Arizona Department of Revenue, PO Box 29079, Phoenix AZ 85038-9079. One or more officers (president, treasurer, or any other principal officer) must sign the return. The department requests that taxpayers attach a copy of the completed federal corporate income tax return to the Arizona return. ARS § 42-1112 prescribes the schedules required to be included.

The department normally determines the timeliness of a return by the postmark or other official mark of the U.S. Postal Service stamped on the envelope in which the return is mailed. Refer to Arizona General Tax Ruling GTR 93-1 for further information. The department will also accept proof of mailing from a private delivery service included in the Internal Revenue Service list of designated private delivery services. Contact the private delivery service for information regarding how to obtain written proof of mailing.

Rounding Dollar Amounts

Taxpayers must round amounts to the nearest whole dollar. If 50 cents or more, round up to the next dollar. If less than 50 cents, round down.

Arizona Filing Methods

There are three filing methods for corporate income tax returns filed to Arizona: (1) separate company (separate entity); (2) combined; and (3) consolidated.

1. Separate Company

A corporation files on a separate company basis if: (1) it is not part of a group of corporations comprising a unitary business; or (2) it is not a member of an affiliated group that elected to file a consolidated return.

2. Combined Return

A corporation files on a combined basis when it is part of a unitary group of corporations, unless the affiliated group elects to file a consolidated return pursuant to ARS § 43-947.

A unitary business comprises those parts and components whose functions are integrated and interdependent at the basic

operational level. The entities comprising the unitary business must be owned or controlled directly or indirectly by the same interests that collectively own more than 50 percent of the voting stock. Refer to Arizona Administrative Code rule AAC R15-2D-401 for additional requirements. Refer to Arizona Corporate Tax Ruling CTR 00-2 for additional information regarding whether a bond of direct or indirect ownership or control exists.

IRC § 351 reorganizations Activities conducted as part of a unitary business do not become a separate and unrelated business simply because those activities are subsequently conducted by a different affiliated corporate entity. An affiliated corporation resulting from an IRC § 351 reorganization is required to file a combined return as part of the unitary group if its activities are conducted as a part of the unitary business. See Arizona Corporate Tax Ruling CTR 01-1.

A unitary group of corporations required to file a combined return must complete Section I of Form 51 for the first taxable year the group files a combined return. Form 51 is the combined or consolidated return affiliation schedule. Attach the completed Form(s) 51 to the tax return. In succeeding taxable years, complete Sections II (Additions) and III (Deletions) of Form 51 to report changes in the unitary group. Indicate whether changes have been made to the unitary group by checking the appropriate box for question C in the information section on page 1 of Form 120.

Foreign corporation; water's edge limitation Do not allocate or apportion the income and expenses of a foreign corporation to Arizona if the foreign corporation is not itself subject to the Arizona corporate income tax. This provision does not apply if a foreign corporation is a member of an affiliated group that elects to file an Arizona consolidated tax return.

"Domestic corporation" means a corporation created or organized in the United States or under the laws of the United States, any of its states, or the District of Columbia.

"Foreign corporation" means:

- A corporation which is not a domestic corporation.
- A domestic corporation with less than 20 percent of its property, payroll, and sales in the United States. The percentage applies for the three year period immediately preceding the close of the taxable year, or for such part of that period as the corporation has been in existence. The sales factor is not double-weighted when making this determination.
- A domestic corporation that derived 80 percent or more of its federal gross income from sources in Puerto Rico or any other possession of the United States except the Virgin Islands. The corporation must also have derived 65 percent or more of its federal gross income from the active conduct of a trade or business in Puerto Rico or any other U.S. possession except the Virgin Islands. This determination is made for the three year period immediately preceding the close of the taxable year, or for such part of that period as the corporation has been in existence.

Arizona Corporate Tax Procedure CTP 02-1 illustrates sample calculations to determine whether a domestic corporation is considered a foreign (80/20) corporation for Arizona tax purposes.

3. Consolidated Returns

The common parent of an affiliated group of corporations that files a federal consolidated return may elect to file an Arizona consolidated return. The consolidated return includes all members of the affiliated group filing a federal consolidated return, regardless of whether each member is subject to Arizona income tax. The election made by the common parent is effective only if accompanied by written consents to the election signed by each of the members of the affiliated group. Form 122 is the written consent form. A current officer of each subsidiary in the affiliated group must sign the consent form. Attach the completed Form(s) 122 to the tax return for the first taxable year the affiliated group files a consolidated return. The common parent must make the election on or before the due date, including extensions, for filing the original return. The election is binding on the group for succeeding taxable years unless the department consents to a change of filing method. The election made by the Arizona affiliated group to file an Arizona consolidated return is binding on new members that become part of the federal affiliated group in subsequent tax periods. All members of an Arizona affiliated group are jointly and severally liable for the taxes, interest, and penalties of the Arizona affiliated group under Title 42 and Title 43 of the Arizona Revised Statutes. Arizona Corporate Tax Rulings CTR 94-10 through CTR 94-13 address consolidated tax returns.

An affiliated group that elects to file a consolidated return must complete Section I of Form 51 for the first taxable year the Arizona affiliated group files a consolidated return. Form 51 is the combined or consolidated return affiliation schedule. In succeeding taxable years, complete Sections II (Additions) and III (Deletions) of Form 51 to report changes in the Arizona affiliated group. Attach the completed Form(s) 51 immediately following page 4 of Form 120. Indicate whether changes have been made to the Arizona affiliated group by checking the appropriate box for question C in the information section on page 1 of Form 120.

The Arizona gross income of an Arizona affiliated group is the consolidated federal taxable income of the affiliated group. A multistate Arizona affiliated group is a single taxpayer, and must allocate and apportion its income to Arizona using a single apportionment formula. A multistate Arizona affiliated group apportions its income by means of a single apportionment formula.

Arizona Apportionment Methods

There are three apportionment methods for multistate corporate income tax returns filed to Arizona: (1) air carrier apportionment; (2) standard sales factor; and (3) enhanced sales factor.

Air carriers are required to use revenue miles. All other taxpayers may select between the standard or the enhanced sales factor.

1. Air Carrier Apportionment

An air carrier is required to use revenue miles to calculate its apportionment ratio. Check the box for information question D on page 1, fill out Schedule ACA, and attach it to your return. Do not complete Schedule C.

2. Standard Sales Factor

All non-air carrier taxpayers are allowed to continue to use Arizona's standard apportionment formula, which double-weights the sales factor. Check the box for information question D on page 1 and complete Schedule C using the numbers on the left-hand side of Column A to weight the property factor at one, the payroll factor at one, and the sales factor at two. Divide the total ratio by four.

3. Enhanced Sales Factor

All non-air carrier taxpayers may use Arizona's enhanced apportionment formula, which weights the sales factor at sixty percent for tax year 2007. By selecting to use the enhanced sales factor, the taxpayer agrees to the release of its name to the Joint Legislative Budget Committee and to participate in an Economic Impact Analysis. Check the box for information question D on page 1 and complete Schedule C using the numbers on the right-hand side of Column A to weight the property factor at two, the payroll factor at two, and the sales factor at six. Divide the total ratio by ten.

For more information on the apportionment ratio, please see pages 12 through 14 of these instructions.

Treatment of Installment Obligations When Corporation Activities Cease

If a corporation elects to report income from the sale or other disposition of property on the installment method and some of that income remains unreported on the year the corporation ceases to be subject to Arizona corporation income tax, the corporation must report the unreported income in the last year in which the corporation is subject to the tax. This provision does not apply if a reorganization transfers the installment obligation to another taxpayer subject to Arizona tax as the transferee. The transferee may not use its capital losses to offset income from the installment obligation transferred from a corporation no longer subject to the tax.

Payment of Tax

The entire amount of tax is due by the original due date of the return.

Estimated Tax Payments

Corporations that expect an Arizona income tax liability for the taxable year of \$1,000 or more must make Arizona estimated tax payments. Use Form 120ES, *Corporation Estimated Tax Payment*. A corporation that fails to make the required estimated tax payments is subject to a penalty on any estimated tax payment which is late or underpaid. For exceptions, see the instructions for Form 220, *Underpayment of Estimated Tax by Corporations*.

The Arizona required annual payment of corporate estimated tax is the smaller of:

- Ninety percent of the taxpayer's Arizona tax liability (reduced by the claim of right adjustment, if applicable) for the current taxable year; or
- One hundred percent of the taxpayer's Arizona tax liability (reduced by any claim of right adjustment) for the prior taxable year, if the taxpayer's prior year return was for a period of twelve months, and showed at least some amount of tax liability.

Use 2008 Form 120W, *Estimated Tax Worksheet for Corporations*, to compute the required installments.

ESTIMATED TAX PAYMENTS BY ELECTRONIC FUNDS TRANSFER.

Taxpayers whose Arizona corporate income tax liability for the preceding taxable year was \$20,000 or more must make Arizona corporate estimated tax payments via electronic funds transfer ("EFT"). Taxpayers whose preceding taxable year's Arizona corporate income tax liability was less than \$20,000 may elect voluntary participation in the EFT program. If the taxpayer makes its estimated tax payments by EFT, the taxpayer should not submit Form 120ES to the department. Taxpayers required to make estimated tax payments via EFT must complete the department's electronic funds transfer authorization agreement at least 30 days prior to initiation of the first applicable transaction.

Refer to ARS § 42-1129 and the related Arizona Administrative Code rules (AAC R15-10-301 through R15-10-307) for detailed information. Obtain additional information by contacting the EFT Helpline at (602) 542-2040 in Phoenix or at (800) 572-7037 (toll-free). The FAX line is (602) 716-7986.

Extension of Time to File a Return

File a completed Form 120EXT by the original due date of the return in order to make a request for an extension of time to file an Arizona corporate income tax return, or use a valid federal extension. If the taxpayer uses an extension, the taxpayer must check the extension box on page 1 of the return. The Form 120EXT must be used to transmit any extension payments, whether the taxpayer uses a valid federal extension or requests an Arizona extension. Although six months is the maximum extension of time to file that the department itself may grant, the department may accept the federal extension for the same period of time as covered by the federal extension.

The taxpayer must pay 90 percent of the tax liability (including the \$50 minimum tax) by the original due date of the return. The department imposes the extension underpayment penalty on any late or underpaid extension payments.

Either the Arizona or federal extension provide an extension of time to file, but do not provide an extension of time to pay. Payment of one hundred percent of the tax liability is due by the original due date to avoid penalty.

Penalties and Interest

A. Late Filing Penalty. A return filed after the original due date is subject to the late filing penalty unless the taxpayer has a valid federal or Arizona extension. A return filed after its extended due date is also subject to the late filing penalty. The late filing penalty is 4½ percent (.045) of the amount of tax required to be shown on the return. “Amount of tax required to be shown on the return” is the amount of tax imposed less the amount of any part of the tax paid on or before the beginning of the month and the amount of any credit against the tax which may be claimed on the return. The penalty period is each month or fraction of a month between the due date of the return and the date the taxpayer filed the return. The maximum penalty is 25 percent of the tax found to be remaining due.

B. Extension Underpayment Penalty. A return filed without a check in the extension box on page 1 of the return (if the taxpayer uses an extension) may be subject to the extension underpayment penalty. The taxpayer must pay 90 percent of the tax liability disclosed by the taxpayer's return on or before the original due date of the return. The department imposes the extension underpayment penalty on any late or underpaid extension payments. The extension underpayment penalty is one-half of one percent (.005) of the tax not paid. The penalty period is each 30 day period or fraction thereof between the original due date of the return and the date the taxpayer paid the tax. The maximum penalty is 25 percent of the tax not paid.

C. Late Payment Penalty. The department imposes the late payment penalty on any amount shown as tax on a return that is not paid by the date prescribed for its payment. “Amount of tax shown on the return” is the amount of tax imposed shown on the return less the amount of any part of the tax paid on or before the beginning of the month and the amount of any credit against the tax which may be claimed on the return. The late payment penalty is one-half of one percent (.005) of the unpaid tax for each month or fraction of a month that the tax remains unpaid, not to exceed 10 percent of the unpaid tax. The late payment penalty will be imposed on any amount not paid by the original due date of the return, without regard to a proper extension to file.

NOTE: *If more than one of the penalties described in A, B, or C apply, the maximum combined penalty is 25 percent.*

D. Interest. The department assesses interest on any portion of the tax, whether determined by the department or the taxpayer, not paid by the date prescribed for its payment. The department compounds interest annually and applies it in the same manner and at the same time as prescribed by IRC § 6621, except that the Arizona rate of interest for both underpayments and overpayments *for all taxpayers* is the federal underpayment rate under IRC § 6621(a)(2). On January 1 of each year, any interest outstanding as of that date is added to the principal amount of the tax. It is then a part of the principal amount of the tax and accrues interest until paid.

E. Underpayment of Estimated Tax Penalty. The department imposes the ARS § 43-582 underpayment of estimated tax penalty on any late payment or underpayment of a required installment of estimated tax. Refer to Form 220 for further details.

Furnishing Data

The department requests that taxpayers attach a copy of the completed federal return and all its schedules and attachments to the Arizona return. ARS § 42-1112 prescribes the schedules required to be included.

Do not send in a blank Arizona return with a copy of the federal return. Taxpayers must furnish complete data. Answer all questions on the return. Complete all applicable schedules and attach all appropriate supplementary schedules.

Filing Amended Returns

Any taxpayer who files an amended return with the Internal Revenue Service must file an Arizona amended return on Form 120X within 90 days of final determination of the federal amended return by the IRS.

The taxpayer must report changes or corrections of the taxpayer's taxable income by the Internal Revenue Service or as the result of renegotiation of a contract or subcontract with the United States to the department. The taxpayer must, within 90 days after the final determination of the change or correction, either:

- File a copy of the final determination with the department, concede the accuracy of the determination or state any errors, and request the department to recompute the tax owed to Arizona; or
- File an amended return as required by the department.

The taxpayer must provide sufficient information for the department to recompute the taxpayer's Arizona taxable income based on the Revenue Agent Report changes. The department may require the taxpayer to file an amended return if the department does not have this information.

Do not file an amended return until the original return has been processed.

Records

Every corporation should maintain books and records substantiating information reported on the return and keep these documents for inspection. See Arizona General Tax Ruling GTR 96-1 for more information about record retention requirements.

Use of Federal Figures

CALCULATION OF ARIZONA TAXABLE INCOME: each corporation must compute its federal taxable income and make the adjustments required by Arizona law. (Refer to Article 3, Chapter 11, Title 43, of the Arizona Revised Statutes.)

IRC § 7519 Required Payments

Taxpayers cannot deduct the federal required payments on their Arizona tax returns as an ordinary and necessary business expense or otherwise.

**Schedule ACA - Air Carrier Apportionment
Formula
(Multistate Air Carriers Only)**

Effective for taxable years beginning from and after December 31, 2000, ARS § 43-1139 requires a taxpayer that is a qualifying air carrier to use revenue miles to apportion its business income to Arizona. The taxpayer must complete Schedule ACA. Check the box for information question D on page 1 of the return. Do not complete Schedule C.

The taxpayer must be engaged in air commerce. "Air commerce" means transporting persons or property for hire by aircraft in interstate, intrastate or international transportation. If the taxpayer files a combined or consolidated return, the combined group or the Arizona affiliated group must use this method of apportionment if 50 percent or more of the taxpayer's gross income is derived from air commerce. The taxpayer will apportion its business income by means of a single apportionment ratio computed under this method for all group members.

**Schedule C - Apportionment Formula
(Non-Air Carrier Multistate Corporations Only)**

ARS §§ 43-1131 through 43-1150 govern the apportionment of income. A corporation that engages in activities both within and without Arizona must apportion its business income based on property, payroll, and sales in Arizona as compared with everywhere. "Everywhere" means the property, payroll, and sales factors related to the whole

combined or consolidated business.

For tax years beginning from and after December 31, 2006, non-air carrier multistate corporations have the opportunity to choose one of two apportionment formulae for calculating the apportionment ratio. Non-air carrier multistate corporations may select the enhanced sales factor formula in exchange for participating in an economic impact analysis conducted by the Joint Legislative Budget Committee. The department is required to provide the identity of corporations that use the enhanced sales factor formula to the Joint Legislative Budget Committee. The standard sales factor formula must be used by non-air carrier multistate corporations not selecting to use the enhanced sales factor formula.

The numerator of the fraction of the standard sales factor formula is the property factor plus the payroll factor plus two times the sales factor. The denominator of the fraction is four. For tax years beginning from and after December 31, 2006 through December 31, 2007, the numerator of the fraction of the enhanced sales factor formula is two times the property factor plus two times the payroll factor plus six times the sales factor. The denominator of the fraction is ten.

A combined return excludes the factors of a unitary foreign corporation unless the foreign corporation is itself subject to the Arizona corporate income tax. A consolidated return includes the factors of a foreign corporation that is a member of the affiliated group. Both combined and consolidated returns exclude the factors of an insurance company exempt under ARS § 43-1201.

Taxpayers using any of the aforementioned apportionment methods shall complete lines 6 through 12 on page 1.

Standard Sales Factor Formula

Check the box for information question D on page 1 of the return to indicate that the standard double weighting of the sales factor will be used to calculate the apportionment ratio on the corporation's return. Use the numbers located on the left-hand side of Schedule C, column A, to weight the property, payroll, and sales factors.

Line C1 - Property Factor

Refer to AAC R15-2D-601 through R15-2D-607 and R15-2D-902. The value of tangible personal property and real property owned by the taxpayer is its original cost. The taxpayer normally determines the average value of its owned property by averaging the values at the beginning and ending of the tax period. Refer to Arizona Corporate Tax Ruling CTR 01-2 regarding the treatment of computer software in the property factor (whether to include it and attribution to particular state(s) in the numerator).

The value of tangible personal property and real property rented by the taxpayer is eight times its net annual rental rate. The net annual rental rate is the annual rental rate paid by the taxpayer for rented property, less the aggregate annual subrental rates paid by subtenants of the taxpayer. The taxpayer automatically achieves averaging for rented property by the method of determining the net annual rental rate of such property.

Report real property situated and tangible personal property permanently located in Arizona as property within Arizona. Allocate the value of mobile property to Arizona based on the total time that the property was within Arizona.

Compute the property factor by carrying the total owned and rented property numbers on line C1(c), columns A and B, to line C1(e), columns A and B. Next, on line C1(e), divide column A by column B and put the resulting ratio in column C. Express the ratio as a decimal carried out to six places. The property factor on line C1(e), column C, will never exceed 100 percent.

Line C2 - Payroll Factor

Refer to AAC R15-2D-701 through R15-2D-705. Report salaries, wages, or other compensation of officers, employees, etc., as within Arizona if performance of the services occurs here. This rule applies regardless of where payment is made or control exercised. This rule also applies regardless of whether the performance of the services is partly or wholly in connection with the apportionable business carried on outside the state or in interstate or foreign commerce.

Allocate the compensation of officers and employees who perform services partly within and partly without Arizona to this state when:

- The services performed outside of Arizona are incidental to the employee's service within Arizona; or
- The employee's base of operation is in Arizona; or
- The employee has no base of operation in any state but the direction or control of the employee is from Arizona; or
- The employee has no base of operation in any state, and there is no direction or control from a state in which the employee performs some part of his services, but the employee's residence is in Arizona.

Compute the payroll factor by carrying total wages, line C2(a), columns A and B, to line C2(c), columns A and B. Next, on line C2(c), divide column A by column B and put the resulting ratio in column C. Express the ratio as a decimal carried out to six places. The payroll factor on line C2(c), column C, will never exceed 100 percent.

Line C3 - Sales Factor

Refer to AAC R15-2D-801 through R15-2D-807 and R15-2D-903. "Sales" includes all gross receipts from transactions and activities in the course of the regular trade or business that produce income. Determine sales within Arizona on a destination sales basis.

Refer to Arizona Corporate Tax Ruling CTR 07-1 regarding the treatment of income from the investment and reinvestment of short-term securities in the sales factor. Refer to Arizona Corporate Tax Ruling CTR 02-2 regarding the apportionment ratio treatment of a gain on an installment sale apportioned to Arizona.

Compute the sales factor numerator by multiplying the total amount of Arizona sales (line C3(c), column A) by two. Do not multiply the sales factor denominator by two. Next, on

line C3(e), divide column A by column B and put the resulting ratio in column C. Express the ratio as a decimal carried out to six places. The sales factor on line C3(e), column C, may exceed 100 percent. However, the average apportionment ratio (line C5, column C) will never exceed 100 percent.

Line C5 - Average Ratio

Divide the total ratio, line C4, column C, by four. Express the ratio as a decimal carried out to six places. Enter the average ratio here and on page 1, line 9.

NOTE: *The taxpayer must exclude a factor if both the numerator and the denominator of a factor are zero. Do not exclude a factor if the numerator of the factor is zero and the denominator of a factor is greater than zero. If the property or payroll factor is excluded, determine the average ratio (line C5, column C) by dividing the total ratio by three. If the sales factor is excluded, determine the average ratio by dividing the total ratio by two.*

Enhanced Sales Factor Formula

Check the box for information question D on page 1 of the return to indicate that the enhanced sales factor formula will be used to calculate the apportionment ratio on the corporation's return. Use the numbers located on the right-hand side of column A to weight the property, payroll, and sales factors at two, two, and six times, respectively.

Line C1 - Property Factor

Refer to AAC R15-2D-601 through R15-2D-607 and R15-2D-902. The value of tangible personal property and real property owned by the taxpayer is its original cost. The taxpayer normally determines the average value of its owned property by averaging the values at the beginning and ending of the tax period. Refer to Arizona Corporate Tax Ruling CTR 01-2 regarding the treatment of computer software in the property factor (whether to include it and attribution to particular state(s) in the numerator).

The value of tangible personal property and real property rented by the taxpayer is eight times its net annual rental rate. The net annual rental rate is the annual rental rate paid by the taxpayer for rented property, less the aggregate annual subrental rates paid by subtenants of the taxpayer. The taxpayer automatically achieves averaging for rented property by the method of determining the net annual rental rate of such property.

Report real property situated and tangible personal property permanently located in Arizona as property within Arizona. Allocate the value of mobile property to Arizona based on the total time that the property was within Arizona.

Compute the property factor numerator by multiplying the total amount of Arizona property (line C1(c), column A) by two. Do not multiply the property factor denominator by two. Next, for line C1(e), divide column A by column B and put the resulting ratio in column C. Express the ratio as a decimal carried out to six places. The property factor on line C1(e), column C, may exceed 100 percent.

Line C2 - Payroll Factor

Refer to AAC R15-2D-701 through R15-2D-705. Report salaries, wages, or other compensation of officers, employees, etc., as within Arizona if performance of the services occurs here. This rule applies regardless of where payment is made or control exercised. This rule also applies regardless of whether the performance of the services is partly or wholly in connection with the apportionable business carried on outside the state or in interstate or foreign commerce.

Allocate the compensation of officers and employees who perform services partly within and partly without Arizona to this state when:

- The services performed outside of Arizona are incidental to the employee's service within Arizona; or
- The employee's base of operation is in Arizona; or
- The employee has no base of operation in any state but the direction or control of the employee is from Arizona; or
- The employee has no base of operation in any state, and there is no direction or control from a state in which the employee performs some part of his services, but the employee's residence is in Arizona.

Compute the payroll factor numerator by multiplying the total amount of Arizona payroll (line C2(a), column A) by two. Do not multiply the payroll factor denominator by two. Next, for line C2(c), divide column A by column B and put the resulting ratio in column C. Express the ratio as a decimal carried out to six places. The payroll factor on line C2(c), column C, may exceed 100 percent.

Line C3 - Sales Factor

Refer to Arizona Corporate Tax Ruling CTR 02-2 regarding the apportionment ratio treatment of a gain on an installment sale apportioned to Arizona.

Compute the sales factor numerator by multiplying the total amount of Arizona sales (line C3(c), column A) by six. Do not multiply the sales factor denominator by six. Next, for line C3(e), divide column A by column B and put the resulting ratio in column C. Express the ratio as a decimal carried out to six places. The sales factor on line C3(e), column C, may exceed 100 percent. However, the average apportionment ratio (line C5, column C) will never exceed 100 percent.

Line C5 - Average Ratio

Divide the total ratio, line C4, column C by ten. Express the ratio as a decimal carried out to six places. Enter the average ratio here and on page 1, line 9.

NOTE: *The taxpayer must exclude a factor if both the numerator and the denominator of a factor are zero. Do not exclude a factor if the numerator of the factor is zero and the denominator of a factor is greater than zero. If the property or payroll factor is excluded, determine the average ratio (line C5, column C) by dividing the total ratio by eight. If the sales factor is excluded, determine the average ratio by dividing the total ratio by four.*

ADMINISTRATIVE RELIEF REQUESTS

ARS § 43-1148 provides administrative relief if the allocation and apportionment provisions of UDITPA do not fairly represent the extent of the taxpayer's business activity in this state. **The taxpayer may petition for or the department may require**, in respect to all or any part of the taxpayer's business activity, if reasonable:

- Separate accounting, except with respect to an Arizona affiliated group, as defined in ARS § 43-947.
- The exclusion of any one or more of the factors.
- The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state.
- The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income, other than disallowance of a properly elected consolidated return.

This section permits a departure from the allocation and apportionment provisions only in limited cases. ARS § 43-1148 may be invoked only if unusual fact situations produce incongruous results under the apportionment and allocation provisions. Taxpayers seeking such relief should submit a letter to the Corporate Income Tax Audit Section 60 days prior to the filing of the return setting forth the relief that is requested and the justification for the relief.

The department normally makes such determinations only upon audit of the taxpayer. Such a detailed examination of the specific facts and circumstances reveals whether such unusual fact situations and incongruous results exist.

Schedule F - Schedule of Tax Payments

Use this schedule to list any corporate estimated tax payments or extension payments made which the taxpayer is applying to this return. Attach additional sheets if necessary.

DO NOT include the claim of right credit computed under ARS § 43-1130.01 on this schedule.

A principal corporate officer of a parent corporation may execute a written authorization for a controlled subsidiary. Refer to Arizona General Tax Ruling GTR 02-1 for additional information on the definition of a controlled subsidiary. **IF THIS INDIVIDUAL IS NOT A PRINCIPAL OFFICER, OR IS NOT DESIGNATED AS AN AUTHORIZED REPRESENTATIVE IN A VALID POWER OF ATTORNEY, THE TAXPAYER UNDERSTANDS AND AGREES THAT CONFIDENTIAL INFORMATION MAY BE DISCLOSED TO THIS INDIVIDUAL.**
