General Instructions

NOTE: Form 308 is used by taxpayers that are C Corporations, S Corporations, exempt organizations with unrelated business taxable income (UBTI), or partnerships. Individual taxpayers must use Form 308-I.

Arizona Revised Statutes § 43-1168 provides a corporate income tax credit for increased research activities in a taxable year.

- This credit is available to corporate taxpayers, corporate partners, exempt organizations subject to corporate income tax on unrelated business taxable income (UBTI), or S Corporation shareholders.
 - An exempt organization may utilize this credit only if it results from activities that generate UBTI.
 - An S Corporation may claim this credit against income Arizona is taxing at the corporate level, or it may make an irrevocable election to pass this credit through to its shareholders.
 - A partnership must pass this credit through to its partners.
 - If two or more taxpayers, including shareholders of an S Corporation or partners in a partnership, share in the eligible expenses, each taxpayer is eligible to claim a proportionate share of the credit.
- This credit is allowed in an amount computed pursuant to Internal Revenue Code (IRC) § 41 with the following exceptions:
 - Qualified research includes only research conducted in Arizona. The term "qualified research," for purposes of the Arizona tax credit, means qualified research, as defined in IRC § 41, that is conducted in Arizona and basic research, as defined in IRC § 41, which is conducted in Arizona.
 - The amount of the credit is based on the federal regular credit computation method for Arizona qualified research expenses and Arizona basic research payments. Taxpayers cannot use the federal alternative credit computation method.

- The allowable current taxable year credit is a percentage of:
 - The excess, if any, of the Arizona qualified research expenses for the taxable year, over the base amount; and
 - The Arizona basic research payments.
- The termination provisions of IRC § 41 do not apply.
- If the allowable expenses do not exceed \$2,500,000, the allowable credit is 24% of this amount. If the allowable expenses exceed \$2,500,000, the allowable credit amount is \$600,000 plus 15% of the amount of expenses over \$2,500,000, subject to certain limitations.
- A portion of the current year's excess credit may be refundable if you qualify.

Corporate Taxpayers: *If two or more members of a unitary group or an Arizona affiliated group incur qualifying expenses, the individual members of the group are not considered separate taxpayers. When a combined return or a consolidated return is filed, the unitary group or the Arizona affiliated group is considered a single taxpayer.*

REFUNDABLE PORTION OF THE CURRENT YEAR'S EXCESS CREDIT

If you qualify, and if the current taxable year's credit for increased research activities exceeds your income tax liability, a portion of the excess credit may be refundable to you. To qualify to receive this refund:

- You must have less than 150 full-time employees.
- You must apply to the Arizona Commerce Authority (ACA) and receive a Certificate of Qualification (Certificate) to be eligible to receive a refund.
- The refund amount is the lesser of:
 - Seventy-five percent of the excess credit, or
 - The maximum refund amount indicated on the Certificate; any additional amount is waived.

The excess credit is the current year's credit less the current year's tax liability. The 75% refund is only available for the current year's excess credit for increased research activities.

The election to make this credit refundable must be made when you originally file your tax return to claim the current year's credit.

If two or more taxpayers, including shareholders of an S Corporation or partners in a partnership, share in the eligible expenses, each taxpayer is eligible to claim a proportionate share of the refund. An S Corporation must apply for the Certificate on behalf of its shareholders. A partnership must apply for the Certificate on behalf of its partners.

NOTE: *The refund of this credit is calculated after your tax liability. You must calculate all of your other credits before you can determine the current year's excess credit for Increased Research Activities.*

CARRYOVER OF UNUSED CREDIT

If your current taxable year's credit exceeds your tax liability, and you did not elect to receive a refund of 75% of the excess, you may carry forward the unused portion of your credit to the next 15 consecutive taxable years. Due to

various law changes, the amount you may carry forward, and how you may apply those amounts, differ depending on the tax year in which it was earned.

If you received a refund of 75% of the excess credit, you do not have any excess amount to carryforward for this year. Any carryover amounts from previous taxable years must be carried over to the next taxable year, subject to the fifteen-year carryover period and annual limitations on the use of those carryovers.

NOTE – To claim this credit:

Part 2 - Current Taxable Year's Credit Calculation

Corporate taxpayers (excluding S Corporations, personal holding companies, and service organizations): Begin computing your current year's credit on line 8 – Basic research payments paid or incurred.

All other taxpayers: Begin computing your current year's credit on line 11 – Wages for qualified services.

Line 8

Enter the amount you paid to a qualified university, scientific research organization, or grant organization for basic research conducted in Arizona.

NOTE: You must have a written contract with the organization to include these payments in the calculation.

Line 9

Enter your base period amount based on your Arizona research activity. Refer to IRC § 41(e) for a definition of base period amount.

NOTE: The amount reported on line 10, up to the amount reported on line 8, is not eligible for the basic research credit. However, it can be treated as contract research expenses on line 14.

Line 10

If line 8 is greater than line 9, subtract line 9 from line 8. Enter the difference. If line 9 is greater than line 8, enter "0".

Line 11

Enter total wages paid or incurred for qualified services performed in Arizona. Do not include the amount of wages paid to employees that were used in the calculation of the federal work opportunity credit.

NOTE: Wages include any wages paid or incurred to an employee for qualified services performed in Arizona.

Qualified services are: (1) engaging in qualified research; or (2) engaging in the direct supervision, or the direct support of research activities conducted in Arizona that are defined as qualified research.

Qualified research is an investigation undertaken to discover information that is technological in nature. Its application must be intended for use in developing a new or improved business component.

Line 12

Enter the cost of supplies paid or incurred for use in conducting qualified research in Arizona. Supplies include expenditures for any tangible property, other than land or improvements to land, and property of a character subject to the allowance for depreciation.

Line 13

Enter the amount paid or incurred to rent or lease the right to use computers in conducting qualified research in Arizona.

Line 14

Enter the total of:

- (a) Seventy-five percent of any amount paid or incurred for qualified research performed in Arizona by a qualified research consortium on the taxpayer's behalf. "Qualified research consortium" is any qualifying organization as defined in IRC § 41(b)(3)(C)(ii). Also, include 75% of that portion of line 8, basic research payments, paid to a qualified research consortium that does not exceed the line 9 base amount.
- (b) Sixty-five percent of any amount paid or incurred for qualified research performed in Arizona on the taxpayer's behalf, other than such amounts paid to a qualified research consortium. Prepaid contract research expenses are considered paid in the year the research is actually done. Also include 65% of that portion of line 9, basic research payments, that does not exceed the line 10 base amount, other than amounts paid to a qualified research consortium.

NOTE: If you made basic research payments to an Arizona university under the jurisdiction of the Arizona Board of Regents, you may be entitled to an additional credit. See Arizona Form 346 for details.

Line 15

Add the amounts on lines 11 through 14. Enter the total.

Line 16

Enter the average annual Arizona gross receipts for the four taxable years preceding the taxable year for which the credit is being determined (the credit year). You may be required to annualize gross receipts for any short taxable year.

If 2021 is the first year you are in business, your average annual Arizona gross receipts for the preceding taxable years is zero. If you have been in business in Arizona for less than four taxable years prior to the credit year, the average is the sum of annual Arizona gross receipts of the applicable period, divided by the number of taxable years.

Example: DEF Corporation began business in Arizona in 2019. Its annual Arizona gross receipts for 2019 were \$100,000. Its annual Arizona gross receipts for 2020 were \$200,000. Therefore, DEF Corporation's average annual Arizona gross receipts for the 2021 credit year is \$150,000 $(\$100,000 \text{ plus } \$200,000 \text{ divided by } 2)$.

Line 17**Fixed-base percentage**

Use the same type of formulas to compute your fixed-base percentage for Arizona as you would for computing your federal fixed-base percentage. The difference is that you use Arizona qualified research expense and gross receipts amounts instead of federal amounts. Other than that, the calculations are the same. Round off the percentage to the nearest one, one hundredth of one percent (four decimal places).

If the percentage computation involves *de minimis* amounts of gross receipts and qualified expenses in a taxable year, or short taxable years are involved, the amounts may be annualized or disregarded. Refer to IRC §§ 41(c)(3) and 41(f)(4) for details.

Existing firms and start-up companies

Arizona's definition of whether an organization is an existing firm or a start-up company is the same as the federal definition, except on an Arizona basis:

- **Existing firms** - An existing firm is one that had both Arizona gross receipts and Arizona qualified research expenses for at least three taxable years beginning after December 31, 1983, and before January 1, 1989. The fixed-base percentage is the ratio that the aggregate Arizona qualified research expenses for all taxable years beginning after 1983 and before 1989, bears to the aggregate Arizona gross receipts for such taxable years.
- **Start-up companies** - A start-up company is one that had both Arizona gross receipts and Arizona qualified research expenses either: 1) for the first time in a taxable year beginning after December 31, 1983, or, 2) for fewer than three taxable years beginning after 1983 and before 1989.

If the percentage computation involves *de minimis* amounts of gross receipts and qualified expenses in a taxable year, or short taxable years are involved, the amounts may be annualized or disregarded. Refer to IRC §§ 41(c)(3) and 41(f)(4) for details.

NOTE: The maximum percentage that can be entered on line 17 is 16% (.1600).

Lines 18 and 19

Read and follow the directions on the form.
