Region Codes for Indian Reservations

Taxable activity occurring on an Indian Reservation must be reported separately. The following Tribal region codes should be used in place of county codes for all business activity occurring on an Arizona Indian Reservation. Activity will continue to be reported by TPT class.

For example, if your business has activity on the Yavapai Apache reservation in Yavapai County, and it has taxable retail transactions, that activity should be listed on the TPT-1 return in YAW 017 instead of YAV 017. All transactions not located on an Arizona Indian Reservation should continue to be filed under the specific county code

Reservation	Code
Yavapai Apache	YAW
Yavapai-Prescott	YAX
