Individual Income Tax Estimated Payments

Taxpayers are required to make estimated payments if their Arizona gross income will exceed \$75,000, in an amount which will represent unpaid tax liability at the end of the taxpayer's tax year. Total estimated payments paid with form 140ES for tax year 2012 were \$436.6 million, for an average of \$1,886. An additional \$115.0 million in estimated payments came from 2011 tax returns that applied their refunds as a 2012 estimated payment, for an average of \$2,495. Estimated payments received through May 2014 for tax year 2014 are as follows:

		Monthly	Cumulative

Withholding

Withholding payments are received from employers and applied towards a specific quarter for the designated year. Information is gathered for 15 months for any given quarter. For example, from January 2012 through March 2013, \$882.8 million was received for the first quarter of 2012. The latest complete quarter (15 months of information has been compiled) is the first quarter of 2013, which shows a decrease of (1.98%) in withholding payments over the first quarter of 2012. Growth in quarters for which information is still being gathered is as follows:

2nd Quarter 2013	2.59%	3rd Quarter 2013	0.89%
4th Quarter 2013	(0.08%)	1st Quarter 2014	5.57%
2nd Quarter 2014	2.88%		

The state withholding tables calculate Arizona withholding as a percentage of gross taxable wages. The withholding rates are 0%, 0.8%, 1.3%, 1.8%, 2.7%, 3.6%, 4.2% or 5.1%. The 0% option is only available to those individuals who expect no tax liability in the current year.

Through May 2013, the Department of Revenue received 72,165 documents with a fiscal year-end of 2012. Compared to 2013 documents, the Department has seen a 0.8% **decrease** in the number of corporate returns processed at this point of time in the calendar year.

Urban Revenue Sharing Returned to Cities/Towns

Incorporated cities and towns receive a share of net individual and corporate income tax collections, called Urban Revenue Sharing. The amount of money to be distributed during Fiscal Year 2013/14 is 15.0% of net proceeds from Fiscal Year 2011/12 income tax. Amounts returned for May 2014 are shown on Table 1 located at the end of this report.

TRANSACTION PRIVILEGE, SEVERANCE AND USE TAXES

Transaction Privilege, Severance and Use Tax Receipts

The Arizona transaction privilege and severance tax consists of many classifications of tax. These classifications include but are not limited to retail, contracting, amusements, restaurants and bars, hotel/motel and mining severance tax. The collections for all such categories are divided, per statute, into two parts. One part is called distribution base; the other part is known as non-shared. The division of collections into these two parts varies from category to category. For example, retail sales tax is 40% distribution base and 60% non-shared. In contrast, contracting is 20% distribution base and 80% non-shared. Use tax is 100% non-shared. At the close of each month, transaction privilege and severance tax collections are aggregated by category and total distribution base and non-shared portions are calculated. The amount shown as "Use Tax" in the table below includes use tax, use inventory tax and jet fuel use tax. Education tax is in accordance with Proposition 301 resulting in an additional 0.6% education tax being added to most business classifications. Temporary Tax is in accordance with Proposition 100 passed in May 2010, resulting in an additional 1% being added to most business classifications. The Temporary Tax expired on May 31, 2013. Any monies received for the tax from this point is from an older period that was covered by the tax. The "Other Revenue" category includes county excise, road, jail and hospital taxes and various other excise taxes, such as the 911 excise tax.

Distribution of Transaction Privilege, Severance and Use Tax Receipts

Of the distribution base portion of transaction privilege and severance taxes, described above, 25% is returned to incorporated cities/towns, 40.51% is returned to counties and 34.49% goes to the state general fund with the exception of mining severance tax. All of the non-shared revenue and use tax is deposited into the general fund. Therefore, the "Retained by State" figure presented on the next page includes all non-shared portion of transaction privilege tax, use tax and 34.49% of the distribution base collections. The education tax is distributed in accordance with Proposition 301. Temporary Tax is in accordance with Proposition 100 passed in May 2010, resulting in an additional 1% being added to most business classifications. The Temporary Tax expired on May 31, 2013. Any monies received for the tax from this point is from an older period that was covered by the tax. "Other" revenues are returned to the administering authority.

¹ The Temporary Tax expired May 31, 2013. Any collections received from this point are from an older period covered by the tax.

Telecommunications Devices, 911 Excise and 911 Wireless Service classifications previously listed in the collections table are not elements of calculated taxable income and therefore, are not included in the above table. Since the jet fuel use tax is a gallon age tax, this too cannot be computed as taxable income. Timber Severance includes only sales subject to a repealed rate. The current tax is per board feet upon which taxable income cannot be computed.

Transaction Privilege and Severance Tax Returned to Cities/Towns

The portion of transaction privilege and severance tax returned to each incorporated city or town for May 2014 is shown on Table 2, attached to this report.

County Tax Collections

The county-imposed tax collections received by the Department of Revenue during May and returned to the counties are shown on Table 3, attached to this report. The rental car surcharge in Maricopa County is \$2.50 per car and in Pima County is \$3.50 per car. The RV Surcharge in Pima County is \$0.50/day on each lease or rental of a parking space for recreational vehicles.

³These Taxable Sales figures are calculated on a per return basis, by taking collections and dividing them by the appropriate tax rate. These figures may not match other Taxable Sales figures calculated on the aggregate.
