
Arizona Modernized e-File (MeF) QuickAlert – February 4, 2016

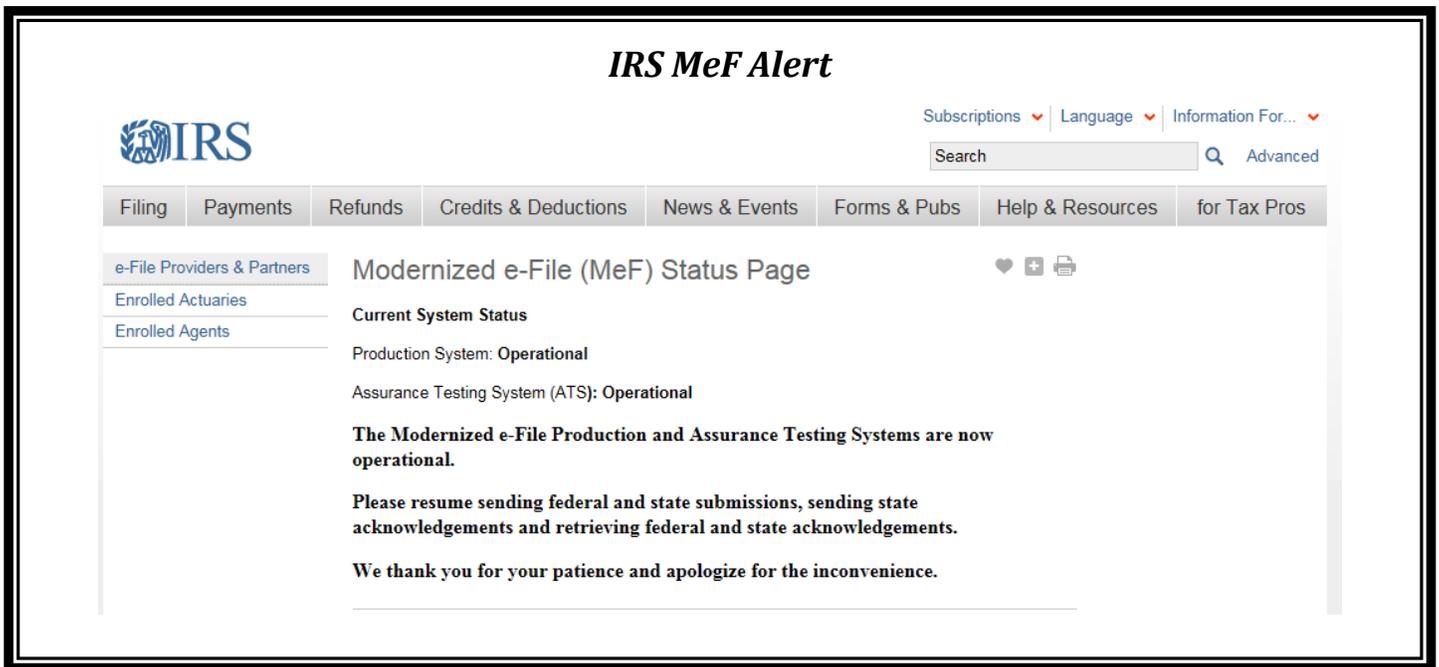

IRS Reports System is Operational

Current Arizona Modernized e-File (MeF) System Status
Production System: **Operational**

MeF QuickAlert

Submissions

The IRS is reporting that they are now operational as of February 4, 2016. We are processing submissions and sending acknowledgements.

The screenshot displays the IRS MeF Alert page. At the top, the IRS logo is on the left, and navigation links for Subscriptions, Language, and Information For... are on the right. A search bar with a magnifying glass icon and the word "Advanced" is also present. Below the navigation is a horizontal menu with tabs for Filing, Payments, Refunds, Credits & Deductions, News & Events, Forms & Pubs, Help & Resources, and for Tax Pros. The main content area is titled "Modernized e-File (MeF) Status Page" and includes a "Current System Status" section. This section reports that the Production System is Operational and the Assurance Testing System (ATS) is Operational. A bolded message states: "The Modernized e-File Production and Assurance Testing Systems are now operational." Below this, it asks users to resume sending federal and state submissions, state acknowledgements, and retrieving federal and state acknowledgements. The page concludes with a thank you message for patience and an apology for inconvenience.

Thank you for using Arizona e-File.
